## PROJECTS:

### Mitchie Costelo Portfolio Website

- Developed interactive components for a user interface including buttons, menus, and navigations using JavaScript and React.
- Focused on responsive web design to build a cross-browser compatible and accessibility compliant website using CSS3.

### NotThisCord! Communication App

- Collaborated with a team of five members to provide a group communication app solution for a client and business using Java.
- Assisted from requirements definition until successful user acceptance testing to ensure client business met their needs.
- Lead team during integration to implement designs with futureproofing and optimization in mind to increase performance.

### FileGhost File Manager

- Created a program using Python that allowed users to navigate and edit files on a client system for remote administration.
- The manager establishes connections using socket programming to issue commands with a focus on functionality for the user.

### SteloBot Discord Bot

- Constructed a Discord bot using Java that fetches an API from the website [fflogs.com](https://fflogs.com) that messages users on latest updates.
  - Designed to streamline and optimize player experience, improving search times by 2 minutes and reducing necessary clicks.
- 

## WORK EXPERIENCE:

### Amazon Services LLC – Prime Now Shopper || Oakland, CA

May 2019 – Mar 2022

- Prepared and organized customer orders in a challenging environment; responsible for ensuring timely order fulfillment.
- Coordinated and assisted team members, focused on efficient item retrieval and load management for each member on team.

### Hayward Self Storage – Assistant Manager || Hayward, CA

Apr 2017 – Dec 2018

- Accounted for selling and managing over three hundred storage units at each of the facilities in Hayward and San Leandro.
- Organized each site to manage potential clients and upcoming events through programs such as Salesforce, Word, and Excel.
- Oversaw sales and transactions; counted cash, assisted with client credit cards, and balanced drawers for financial operations.

### Music Unlimited – Assistant Manager || San Leandro, CA

May 2016 – Dec 2016

- Assisted in selling and maintaining musical gear; demonstrated item knowledge and understanding to meet customer needs.
- Oversaw vendor relationships; established ideal inventory levels based on demand forecasts through purchases made online.
- First employee to offer instrument repair work, providing an extra outlet for generating revenue and gaining customer loyalty.
